

BAG SEALERS

Model W-280: Motorized Polysealers

For air and watertight sealing of polyethylene bags used for packaging food, dry goods, hardware and miscellaneous manufactured products.

Features:

- For uniform, strong, attractive seals, unit uses patented low voltage heated band with Teflon® cover.
- When new Teflon® is needed it is easily replenished from reserve supply.
- Rapid warm-up takes only two minutes from turn-on.
- Portable unit can be operated by standing or seated operator. Easy to move, conveniently stored.
- Convenient foot switch gives single-cycle sealing or continuous-cycle sealing when kept depressed.

Specifications:

Motorized Polysealers		
Model	Capacity	Power
