

# The Latest Technology in Hand Sanitizers

This is the original formula and flagship solution of our company. Original Germstar® is formulated with 70% Isopropyl alcohol as its active ingredient, special emollients and a fresh mint scent.

## Product Merits:

- The Isopropyl alcohol base yields the broadest killing spectrum of all of our solutions.
- Original has very strong general effectiveness against the most common disease-causing germs. (colds, flu's, viruses and fungi)
- It is highly effective and the preferred solution for clinical and medical applications.
- Emollients are engineered to “stay out of the way” of the alcohol molecules during the killing phase, yet the wash finishes with ingredients which actually leaves the skin clean, soft, and moisturized.
