

Model D-53-RS Semi-Automatic Strapping Machines

The D-53RS is a side-seal version of D-53 especially designed to strap donut-shaped bundles such as:

- Tires,
- Wires,
- Tubes and
- Hoses.

The two supporting bars rotate, making it easy to position the bundle with little effort.

The strap feeding buttons are located on the both sides of the machine to enable easy operation from either side.

- ▶ **SIDE SEAL**
 - Quickly strap donut shaped objects
- ▶ **VARIABLE AND CONSISTENT TENSION**
 - Tension can easily be adjusted from low to high with a single dial. In addition, tension mode switch offers standard or high tension mode in order to provide a wider range of tension.
- ▶ **QUICK HEATER**
 - Only requires 30 seconds to reach operating temperatures.
- ▶ **HIGH SPEED CYCLE**
 - Cycle starts immediately after the strap is inserted into the band guide and completes the cycle faster than ever.
- ▶ **ENERGY CONSERVATION FEATURE**
 - The motor automatically stops when the machine is idle for a while, and starts again once strap is reinserted into the band guide
- ▶ **STRAP SIZES OPTION**
 - This model can be used with strap widths ranging from 5mm to 15.5 mm
